## 32 Aluminum foil stand up pouch with 10mm and 16mm spout :

We stock stand up pouch with 10mm , 16mm spout. We have two different type of spout position (for 50 and 100ml spout is in the center. For 250ml, 500ml, 1ltr and 2 ltr spout is in corner ). For 50 and 100ml pouches customer has to fill product from the spout and screw the cap to seal the bag.

For 250ml, 500ml, 1ltr and 2 ltr customer has to fill product from pouch and heat seal the pouch. Seal thickness should be minimum 8 to 10mm to avoid leak.

Our bags can withstand hot filling upto 80- 90 degree celcius and freezer temperature upto minus 25 degree celcius.

Our bags are environmentally friendly packaging compared with Plastic bottles or glass bottles. To fill 1 litre of liquid in plastic bottle the empty bottle weight can be approx 50 grams. To fill 1 litre of liquid in spout pouch the weight of the pouch can be 15 grams. So less use of plastic and fossil fuels, less carbon emission, less land fill problems, transportation cost decreases upto 7 times so less carbon emission and less fuel consumption.

We can pack products like salad dressing oil, Edible oils, liquid cosmetics, soup, Liquid detergents, Juices, Yogurt, baby foods, fruit puree, jam, spread toppings, tomato ketchup, mayonnaise, BBQ sauces etc...

Filling of salt, pepper, powdered products, seeds and sugar in spout pouches can add up packaging value and uniqueness to customers. It will be very convenient for the customers to use the products directly from spout pouches. Please try this concept to increase your sales.... Guaranteed increase on your sales!!

Please contact us for spout pouch filling machine.

### 33 Clear stand up pouch with 10mm and 16mm spout :

We stock clear stand up pouch with 10mm,16mm spout. We have two different type of spout position ( for 50 and 100ml spout is in the center. For 250ml, 500ml, 1ltr and 2 ltr spout is in corner).

For 50 and 100ml pouches customer has to fill product from the spout and screw the cap to seal the bag. For 250ml, 500ml, 1ltr and 2 ltr customer has to fill product from pouch and heat seal the pouch. Seal thickness should be minimum 8 to 10mm to avoid leak.

Our bags can withstand hot filling upto 80- 90 degree celcius and freezer temperature upto minus 25 degree celcius.

Our bags are environmentally friendly packaging compared with Plastic bottles or glass bottles. To fill 1 litre of liquid in plastic bottle the empty bottle weight can be approx 50 grams. To fill 1 litre of liquid in spout pouch the weight of the pouch can be 15 grams. So less use of plastic and fossil fuels, less carbon emission, less land fill problems, transportation cost decreases upto 7 times so less carbon emission and less fuel consumption.

We can pack products like salad dressing oil, Edible oils, liquid cosmetics, seeds, soup, Liquid detergents, Juices, Yogurt, tomato ketchup, mayonnaise, BBQ sauces etc...

Filling of salt, pepper, powdered products and sugar in spout pouches can add up packaging value and uniqueness to customers. It will be very convenient for the customers to use the products directly from spout pouches. Please try this concept to increase your sales.... Guaranteed increase on your sales!!

Please contact us for spout pouch filling machine.

### 34 Drink Bag With Zipper And Straw Holder.

We have developed new concept to serve juices, mocktails, cocktails in stand up pouches with zipper. This concept is getting very popular now due to the bags has good convenience than cups. One can easily carry 10 to 12 pouches in hand compared with cups. Liquid cannot spill once the pouch is zipped. Transportation is very easy even though one person is carrying the pouches in car as liquid will not spill even though the pouches are kept in slipping position. Children's can easily handle the pouches with handle so no spill.

On our bags we have given two holes to hang the straw so the straw cannot fall and it is convenient to the customer.

Try our new concept and see your sales going high!!

**36 Stand up pouch with zipper Brown paper bags with oval window :**

Stand up pouch with oval window in brown paper is now available in different sizes. This pouches are not suitable for oily products because it do not have sufficient barrier so the oil sometime migrates on the top surface of bag and sometime the paper looks little oily. This pouch does not have sufficient oxygen and moisture barrier. So the life of the product filled inside will be less compared with other bags. If you require more barrier and oil protection in brown paper with window, than please use our brown paper full rectangle window bags.

## 39 Heat Sealers

Our Impulse Hand Heat Sealer is a great investment for sealing several packaging bags like Stand-Up Pouches, Side Gusset Bags, Flat Bottom bags, Spout Pouches, Paper Bags, etc. It helps for locking in freshness of your products.

With **7mm sealing thickness**, our sealers help in **preventing oxygen and moisture** inside the bags and maximise the shelf life of your products. Other competitors only provide 1mm to 2mm sealing thickness which does not prevent oxygen from entering and contaminates your product.

	
<b>We provide 7mm Sealing Thickness</b>	<b>Competitors only provide 1-2 mm Sealing Thickness</b>
 Prevents Oxygen and Moisture from entering	 Oxygen and Moisture enters easily into the bag and contaminates the product
 0% chance of product leakage	 Very high chances of product leakage
 Suitable to seal any kind of pouch without leakage	 Cannot seal laminated bags

Additionally, it is very easy to use compared to other heat sealers in the market. You just have to plug in, set the temperature and start sealing. Whatever you need to seal, this lightweight machine can handle it very well.

### Our Machine Specifications:

- 7mm sealing thickness
- Available in 200mm and 300mm sealing width
- Adjustable time and light indicator
- No warmup time

For Perfect Sealing Impression, we would recommend that when the sealing is done and the light goes off, keep the handle pressed for 5-10 seconds.
